KEY FEATURES:

The Safeline PU Breathable Rainsuit is a two-piece waterproof suit (jacket and trousers) made from durable polyurethane (PU) on a flexible polyester backing. Engineered for comfort and long-term wear in wet conditions, it combines high waterproof protection with breathability to reduce internal moisture build-up. Welded seams ensure complete water resistance, while ventilation points promote airflow, making it ideal for active workers who need full coverage in harsh weather.

With an ergonomic design and adjustable features, this rainsuit is suited for a wide range of industries, from construction and agriculture to roadworks and utilities.

DETAILS:

Key Features:

- 100% Waterproof PU-coated Fabric
- Breathable Material – minimizes sweat and moisture buildup inside
- Welded Seams – prevents water ingress
- Ventilated Back & Underarms – improves air circulation
- Elasticated Waist Trousers – for secure, flexible fit
- Adjustable Cuffs & Ankles – for weather sealing
- High Collar with Zip and Storm Flap – protects against wind and rain
- Lightweight and Flexible – allows easy movement
- Two-Piece Suit – jacket and trousers included

Best Use:

- Outdoor Construction & Civil Engineering
- Road Maintenance
- Agriculture & Farming
- Utilities & Drainage Work
- Festivals & Event Security
- General Outdoor Work in Wet Weather
