

PRODUCT NAME:

STERATE PAPER SHEET

PRODUCT CODE/S:

BROWN	
AP157	STERATE PAPER SHEET GRIT 80
AP159	STERATE PAPER SHEET GRIT 120
AP160	STERATE PAPER SHEET GRIT 150

DETAILS:

Full Description:

- Sterate Paper Sheets are high-quality abrasive sheets designed for professional and DIY use. Coated with a zinc sterate layer, they resist clogging and offer excellent performance when sanding materials like wood, paint, primers, and body fillers. The paper backing is flexible and durable, allowing for hand or machine sanding with a smooth, consistent finish.

These sheets are ideal for dry sanding tasks across a range of surface types and are available in various grits to suit each stage of surface preparation.

Application Area

- Woodwork – sanding bare or primed wood surfaces
- Automotive – preparing body fillers, primer, and paint
- Decorating – smoothing walls, ceilings, and trims before painting
- DIY Projects – furniture restoration, cabinetry, and craftwork

Key Features:

- Zinc sterate coating for clog resistance
- Suitable for dry sanding only
- Available in Grit 80 (coarse), 120 (medium), and 150 (fine)
- Flexible and tear-resistant backing
- Delivers uniform finish and long-lasting performance
- Compatible with hand sanding or sanding blocks
