 CERTIFIED FOOD SAFE AND SAFE FOR HYGIENIC ENVIRONMENTS

**DETAILS:**
**TECHNICAL SPECS:**

<b>Base</b>	Oxime Silicone
<b>Appearance</b>	Smooth, paste-like consistency
<b>Color</b>	White
<b>Packaging</b>	310ml cartridge
<b>Skin Forming Time:</b>	Approximately 10 minutes (@ 20°C, 65% RH)
<b>Curing Time</b>	~2 mm in 24 hours (dependent on ambient temperature and humidity)
<b>Paintability:</b>	Not paintable – painting over silicone is not recommended

**IDEAL FOR:**

- Sealing around kitchen worktops and sinks  
 Bathrooms, showers, baths, and sanitary ware  
 Cleanroom environments and food preparation areas  
 Hospitals, schools, laboratories, and public buildings  
 Locations requiring long-lasting hygiene and antimicrobial protection

**INSTRUCTION FOR USE:**

- Preparation:**  
 Surfaces must be clean, dry, and free of dust, grease, or old sealant.
- Application:**  
 Cut nozzle to required bead size and apply using a standard sealant gun. Smooth within 5-10 minutes using a sealant finishing tool or damp cloth.
- Curing:**  
 Allow to cure undisturbed. Avoid water contact until fully cured. Tack-free in approx. 10 mins; full cure in 24 hours (for 2mm bead).
- Aftercare:**  
 Once cured, the sealant can be cleaned with mild detergent and water. Do not paint over.
