OVERVIEW

THE EVT BPC SERIES IS A PROFESSIONAL-GRADE POLYURETHANE SEALANT IDEAL FOR USE IN CONCRETE JOINTS, STRUCTURAL GLAZING, FAÇADE ELEMENTS, AND METAL CONSTRUCTION. THIS SEALANT OFFERS STRONG ADHESION, HIGH ELASTICITY, AND EXCEPTIONAL MECHANICAL RESISTANCE.

DETAILS:

Key Features:

- Single-component, moisture-curing PU formula
- Excellent adhesion on concrete, metals, wood, and plastics
- Durable and highly elastic
- Weather-resistant and UV stable
- Available in multiple RAL colours for aesthetic consistency
- Ideal for dynamic joints subject to movement

Technical Specifications:

1. Base: Polyurethane
Packaging: 310ml cartridge
Colours Available:
Rape Yellow (Prime 1021)
RAL 7021 (Black Grey)
RAL 7028 (Moss Grey)
RAL 7043 (Traffic Grey B)
Skin Time: ~30 minutes
Cure Time: ~3-4 mm/24 hrs
Shore A Hardness: ~40
Movement Capability: ±25%
Temperature Resistance: -40°C to +90°C
Application Temp: +5°C to +35°C

DIRECTIONS FOR USE

1. Ensure all surfaces are clean, dry, and free of oil or dust.

Apply sealant with a suitable caulking gun.

Smooth the joint before skin formation using a spatula.

Clean excess with PU cleaner or solvent before curing.
