

**PRODUCT NAME:**

CERAMIC HEATER 2 X 1500 W 220W

**PRODUCT CODE/S:**

HEATSTAN220

**OVERVIEW:**

THE CERAMIC HEATER 2 X 1500W 220V WITH TRIPOD IS A POWERFUL AND PORTABLE HEATING SOLUTION DESIGNED FOR WORKSHOPS, CONSTRUCTION SITES, EVENT SPACES, OR GARAGES. FEATURING TWO 1500W CERAMIC ELEMENTS, THIS HEATER DELIVERS RAPID RADIANT HEAT WHILE THE ADJUSTABLE TRIPOD ALLOWS FLEXIBLE HEIGHT POSITIONING AND DIRECTIONAL CONTROL.

BUILT FOR HEAVY-DUTY USE, THE CERAMIC TECHNOLOGY ENSURES EFFICIENT HEAT WITH MINIMAL WARM-UP TIME. THE IP44 RATING AND OVERHEAT PROTECTION MAKE IT A SAFE CHOICE FOR COMMERCIAL OR INDUSTRIAL ENVIRONMENTS WHERE DURABLE, RELIABLE HEATING IS REQUIRED.

**DETAILS:**
**TECHNICAL SPECS:**

<b>Power Output</b>	2 x 1500W (3000W total)
<b>Voltage</b>	220-240V / 50Hz
<b>Heating Element</b>	Infrared Ceramic
<b>Fan</b>	Integrated high-efficiency fan
<b>Thermostat</b>	Adjustable

**Safety Features:**

- Overheat Protection – Automatically shuts off if the unit overheats
- Anti-Tip Safety Switch – Cuts power if the unit is knocked over
- IP44 Rated Housing – Splash- and dust-resistant for semi-outdoor or indoor use
- Cool-Touch Housing – Safe to reposition during or after use
- No Oxygen Consumption – Safe for enclosed, ventilated spaces compared to gas

**Ideal For:**

- Construction sites
- Warehouses and workshops
- Garages or maintenance bays
- Temporary indoor event spaces
- Sheltered outdoor environments

**STANDARDS**

**EN 60335-2-30**
