

**PRODUCT NAME:**
**GAS WELDING GOGGLE**
**PRODUCT CODE/S:**
**SA1130**
**OVERVIEW**

GAS WELDING GOGGLES PROVIDE ESSENTIAL EYE PROTECTION FOR GAS WELDING, BRAZING, AND CUTTING TASKS. THEY ARE CONSTRUCTED WITH DURABLE, HEAT-RESISTANT MATERIALS AND FEATURE DARK-TINTED LENSES THAT REDUCE GLARE AND BLOCK HARMFUL ULTRAVIOLET (UV) AND INFRARED (IR) RADIATION. ADJUSTABLE HEAD STRAPS AND LIGHTWEIGHT DESIGN ENSURE COMFORTABLE, SECURE WEAR DURING EXTENDED USE. VENTILATION SLOTS HELP PREVENT FOGGING WHILE MAINTAINING SAFETY STANDARDS.

**DETAILS:**
**Key Features:**

- Impact-resistant lenses
- UV and IR protection
- Adjustable elastic head strap for secure fit
- Lightweight and comfortable for long periods of wear
- Ventilation slots to reduce fogging
- Flip-up front lenses (on some models) for easy switching between tasks

**Technical Specifications:**

1. Lens Type: Polycarbonate or glass (depending on model)
- Lens Shade: Typically Shade 5 (confirm model)
- Frame Material: Heat-resistant thermoplastic or rubber
- Strap Type: Adjustable elastic band
- Ventilation: Direct or indirect venting
- Weight: Lightweight (~150g)

**Ideal For:**

1. Gas welding
- Oxy-acetylene cutting
- Brazing and soldering
- Torch work
- Metal fabrication tasks

**STANDARDS**
**EN 166**
