

**PRODUCT NAME:**

BUNTING RED & WHITE 26M LONG

PRODUCT CODE/S:

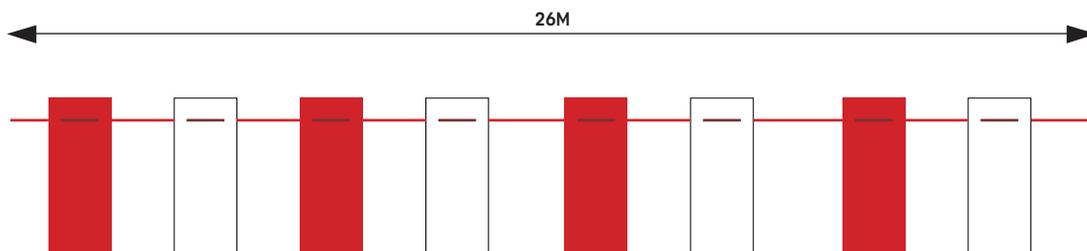

WT11

KEY FEATURES:

This rope marking with red and white pendants is designed for use around work sites, warehouses and wherever a light duty barrier system is required. It is an excellent alternative to rope, which can "disappear" visually into the background. The pendants catch the eye and allow pedestrians, drivers and other passers-by to gauge the distance away that the rope is.

MATERIALS:

The pendant tags suspended from the main cord are red and white and made of plastic, so are long lasting and weather resistant. The overall cord length is 26metres.

DETAILS:**STORAGE**

STORE UNDER NORMAL CONDITIONS OF 70°F (21°C) AND 50% R.H. IN THE ORIGINAL CARTON.
