

PRODUCT NAME:

MULTI-CUTTING TOOL SET

PRODUCT CODE/S:

JSEK200

KEY FEATURES:

Superior Value Oscillating Saw Blades kit, for cutting wood, soft metal, and plastic. These oscillating saw blades can meet a variety of needs, which could be used for workshops, households, or other places.

Your tools should last for years, and you can be sure these Ohuhu Oscillating Saw Blades will. Designed with the toughest of premium alloy steel and high carbon steel, you can cut through nearly any material, from wood, soft metals (Iron sheet, aluminum alloy, ect), plastics, hardwoods, drywall, fiberglass, acrylics and laminates.

Precision Cutting Performance: Get the right cut the first time around. Since every saw blade comes with measurements on both sides of the blade (in inches and millimeters) and a longer wavy tooth, you'll always get the best results.
