

PRODUCT NAME:

FFP2- VALVED RESPIRATOR MASK

PRODUCT CODE/S:

SE12575BC: 3PCS PER PACK
SE12575BB: 10PCS PER PACK

KEY FEATURES:

- 95% filtration efficiency against certain non-oil based particles and aerosols
- cool flow valve helps reduce heat buildup inside the respirator.
- Recommended for relief from dusts and certain particles encountered during sanding projects (bare wood, non lead painted surfaces, or drywall), grinding, sawing, sweeping, installation of fiberglass insulation.
- May not be appropriate for use in certain locations, such as those that do not permit valved respirators.
