

PRODUCT NAME:

PROPANE GAS CYLINDER 400G

PRODUCT CODE/S:

CODE: GT2400

KEY FEATURES:

The propane cylinder is designed to fuel hand torches for proficiency with trade jobs such as small soldering jobs, softening putty and paint, removing rusty bolts and nuts, thawing frozen locks and is even handy in the kitchen. Constructed of durable steel, the slim, lightweight cylinder is easy to grip and manoeuvre.

- High Flame Temperature: Flame temperature in air is 1898°C
- Efficiency: Heats materials quickly, saving time on tasks.
- Versatility: Ideal for soft soldering, DIY and hospitality applications
- Slim, lightweight design.
- Ease of Use: Compatible with many torches and tools.
- Portability: Comes in easy-to-transport cylinders.
- Safety: Robust, leak-resistant cylinders for safe use.
- Cleaner Burn: Produces less soot and carbon deposits.
- Long Shelf Life: Can be stored for a long time without losing effectiveness.

DETAILS:

| | |
|-------------------------|----------------------|
| MODEL | PROPANE Gas Cylinder |
| CYLINDER VOLUME (L) | 1 |
| DIAMETER (CM) | 7.8 |
| HEIGHT (CM) | 28 |
| WATER CAPACITY (lbs) | 2 |
| SERVICE PRESSURE (psig) | 260 |
| TEST PRESSURE (psig) | 325 |
| SERVICE PRESSURE (mpa) | 1.8 |
| TEST PRESSURE (mpa) | 2.24 |
| SPECIFICATION | DOT-39 |
| NET WEIGHT | 14.1oz/400g |
