

**PRODUCT NAME:**

**ECO 4 FALL ARREST WITH POSITIONING BELT**

**PRODUCT CODE/S:**

**27887**

**OVERVIEW**

THE ECO 4 FALL ARREST SYSTEM WITH POSITIONING BELT PROVIDES OPTIMAL SAFETY AND COMFORT FOR WORKING AT HEIGHT. IT COMBINES A ROBUST FALL ARREST MECHANISM WITH A COMFORTABLE POSITIONING BELT, DESIGNED FOR EXTENDED USE IN DEMANDING ENVIRONMENTS.

**DETAILS:**

**Key Features:**

- **Integrated Fall Arrest System:** Delivers reliable fall protection with a maximum arresting force that complies with safety standards.
- **Positioning Belt:** Features a 100% polypropylene belt, 200 mm wide, for maximum support and comfort during extended use.
- **Strap:** Constructed from durable 100% polyester with a 45 mm width, ensuring strength and long-term resistance to wear.
- **Adjustable Straps:** Chest, shoulder, and leg straps are fully adjustable to provide a secure and comfortable fit for various body types.
- **Metal Parts:** Made from high-quality alloys (Mn, Si, C) with anti-corrosive treatment for increased durability in harsh environments.
- **Quick-Release Buckles:** Designed for easy wear and removal, minimizing downtime during gear changes.
- **Attachment Points:** Equipped with D-rings for both fall arrest and positioning, offering versatility for different job requirements.
- **Compliance:** Conforms to EN 358 standards for personal fall protection and work positioning systems.
