

**PRODUCT NAME:****CARBON MONOXIDE DETECTOR ALARM****PRODUCT CODE/S:****EL2227****OVERVIEW**

**THE SAFELINE CARBON MONOXIDE DETECTOR ALARM EL2227 IS A SAFETY DEVICE DESIGNED TO DETECT THE PRESENCE OF CARBON MONOXIDE (CO) GAS IN THE ENVIRONMENT AND ALERT USERS TO POTENTIAL DANGERS. CARBON MONOXIDE IS A COLORLESS, ODORLESS, AND POTENTIALLY LETHAL GAS PRODUCED BY INCOMPLETE COMBUSTION FROM APPLIANCES LIKE GAS HEATERS, STOVES, AND FIREPLACES. THE EL2227 PROVIDES AN EARLY WARNING TO PREVENT POISONING FROM CO EXPOSURE.**

**DETAILS:****Key Features:**

- **Reliable CO Detection:** Continuously monitors carbon monoxide levels and triggers an alarm when dangerous concentrations are detected.
- **Loud Alarm:** Emits a loud sound to alert individuals of CO presence, ensuring immediate action can be taken.
- **User-Friendly Design:** Easy to install and operate with a clear display of CO levels.
- **Test and Reset Function:** Allows users to test the alarm and reset it after an alert.
- **Low Battery Indicator:** Alerts users when the battery is low, ensuring the device is always functional.
- **Compliance:** Meets industry standards for CO detection, offering peace of mind for homes, offices, and other environments.

**Applications:**

- **Homes:** Ideal for use in kitchens, bedrooms, or near gas appliances to protect family members from CO exposure.
- **Offices and Workplaces:** Provides an extra layer of safety in environments with gas-powered equipment or heating systems.
