Packed by label

**Fibreglass handle** **16oz**

**Natural rubber**

## SELLING POINTS

1. The hammer head is made of selected rubber, which is highly wear-resistant and elastic, and effectively protects the striking surface. 2. The hammer head and the hammer handle are embedded, and are not easy to fall off. 3. The handle is beautifully designed, and has a non-slip professional texture design, which is comfortable to hold.
